### **PRECON POLSKA**

HEIDELBERGCEMENT Group

For the head office of Precon Polska Sp. z o.o. in Warsaw we are looking for a constructor / structural engineer with development potential. We are now establishing a new small team for the Scandinavian design support. In a some years we are going to shift the focus to the domestic market.

**Do you want to have an opportunity to become the main constructor of the team and also to seek to become a team leader? Are you attracted to working for a company where we invest in you and where we keep on employing result, oriented and competent people? Then keep on reading this advertisement...**

Your job will involve designing concrete elements in concrete buildings and making structural calculations as well as co-ordinating the team. The result of your work will be project documents which will be used as production drawings in one of our manufacturing facilities in Poland, Denmark and Sweden.

We want you to be a good team leader, to be able to motivate and support others. You must also have the capacity to see the whole picture and find effective and profitable ways to achieve our joint objectives.

In order to be successful in your role you need to be able to plan, to organise and to properly prioritise. You will actively follow up the projects, keep to the deadlines and budget, and you must be keen on challenge and changes.

You require a master's degree in Construction with the speciality of Constructor, and you must be able to communicate with ease in English, both in writing and speaking, have a good knowledge of AutoCad and structural calculations, and also you must have some years' experience in similar positions. However, we require that you are flexible and are happy about travelling frequently in Poland, but also abroad, because you will be required to take part in a lot of training and introduction. You are also required to have a driving licence.

Does it sound interesting? Don't hesitate and send your application!  
We offer exciting projects with development opportunities.

Should you have any questions you are welcome to contact Adam Twardowski, tel. +48 601 947 343. You may also email your application directly, in English, with the reference "CONSTRUCTOR/STRUCTURAL ENGINEER" to:
